### Web App Tests

Input Screenshot:

The screenshot shows a web browser window with the title 'Team3\_Piano - Create Piano'. The address bar displays the URL 'http://localhost:9080/Team3\_Scrum4/Team3\_Scrum4\_Web/Team3\_Piano.html'. The page content includes a heading 'Create a Piano' followed by three input fields: 'Model:' with the value 'C7X', 'Manufacturer:' with the value 'Grand Piano', and 'Price:' with the value '70000'. Below these fields is a button labeled 'Create Piano'.

Output Screenshot:

The screenshot shows a web browser window with the title 'Team3\_Piano - Create Piano'. The address bar displays the URL 'http://localhost:9080/Team3\_Scrum4/Team3\_Scrum4\_Web/Team3\_Piano.jsp?model=C7X&manufacturer=Grand+Piano&price=70000.0'. The page content includes a heading 'Piano Created' followed by a bulleted list of the created piano's details: Model: C7X, Manufacturer: Grand Piano, and Price: 70000.0.

## SOAP Service Tests

Input Screenshot:

The screenshot shows the 'Web Services Test Client' window. The address bar displays the URL: `http://localhost:9080/Team3_Scrum4Client/sampleTeam3_Piano_APIPortProxy/TestClient.jsp`. The 'Methods' list on the left includes `_getDescriptor()` and `createPiano (java.lang.String,java.lang.String,double)`. The `createPiano` method is selected, and its input form is displayed on the right. The form has three fields: 'model' with value 'U1', 'manufacturer' with value 'Yamaha', and 'price' with value '1200.00'. Each field has a 'null?' checkbox to its left. At the bottom of the form are 'Invoke' and 'Clear' buttons.

Field	Value
model	U1
manufacturer	Yamaha
price	1200.00

Output Screenshot:

The screenshot shows the 'Web Services Test Client' window after the `createPiano` method has been invoked. The 'Result' section at the bottom of the window displays the returned data. The 'model' is 'U1', the 'manufacturer' is 'Yamaha', and the 'price' is '1200.0'.

Field	Value
model	U1
manufacturer	Yamaha
price	1200.0
